No one ever apologises for ESSEX appearance
or performance.

It is the car for everyone. You see it before
the entrances of exclusive Clubs and at the door-
ways of the finest homes. You also see it in the
hard daily service of business and family. You
will enjoy driving it for the smooth vibrationless
performance of its quiet motor. It is so easy to
steer and so comfortable to ride in that even over
long journeys and rough roads it gives a satisfac-
tion that heavy, costly cars do not provide.

HONGKONG HOTEL FIRE.

THE LOW WATER PRESSURE EXPLAINED.

"BUSINESS AS USUAL."

Despite the handicap caused by the disastrous fire of New Year's Day, the Hongkong Hotel is observing "Business as usual" as its slogan.

It is now clear that by the time the Fire Brigade was summoned the outbreak had assumed serious dimensions on the top floor. With regard to the low water pressure, the need for special pump equipment in high buildings is stressed, reliance on street mains being unwise.

The great fire at the Hongkong Hotel still remains, and will remain for some days to come, the main topic of local interest. Now that the excitement of the actual happening has passed off, it is possible to collect the authentic facts of the affair.

It must largely remain a matter of conjecture as regards the origin of fire, although it is clearly established that it started in the lift shaft. It was some little time after eight o'clock that the first signs of fire were noticed on the ground floor level, and the outbreak was subdued. In the opinion of the employees who attacked it. But, meanwhile it had ascended the shaft and had started a serious fire on the top floor. "It was not until 9.08 a.m.—after the fire was well established on the top floor—that the Fire Brigade was called, two calls being received simultaneously, one by street alarm and one by telephone. No. 6 fire appliance was sent, followed by No. 11, and a district call brought in the appliances from Wanchai and Kennedy Town and the fire floats. There can be no possible fault found with the work of the Brigade, because there was a serious fire on top floor of the hotel by the time it was called to the scene.

THE WATER PRESSURE.

Regarding the absence of water pressure in the Hotel's fire hydrants, a *Telegraph* representative has been making enquiries, and learns that the mains in Pedder Street, by which the fire hydrants are fed, are usually kept at about 65 lbs. to 70 lbs. pressure, so that even if the pressure had been at its height there would, at all times, have been but small pressure on the fifth floor of the hotel—where the water was most needed. Assuming that the height of the top floor is about 100 feet, there is a drop of 50 lbs. pressure by the time the water reaches that height, because there is a drop of 1 lb. pressure for every two feet up. Taking off a further 10 lbs. pressure for pipe friction, etc., there would only be a pressure of about 15 lbs. on the fifth floor even though the pressure in the street mains was at the full. When people on the second, third, and fourth floors were tapping the supply at the same time, it was inevitable that at the fifth floor there would be no water.

It has been technically explained to us that it is no use putting fire fighting equipment in a building and relying on street mains pressure unless the known pressure in the particular street is sufficient to give 60 lbs. at the top of the building, after allowing for the decrease which comes because of height and friction. Each high building ought to have associated with its fire pipes and hose, a special pump which will ensure 60 lbs. pressure on the top floor, because the pressure in street mains generally is not sufficient to give it. Otherwise it is only when a fire engine arrives and runs out its hose and gets to work that a fire at the top of a building can be effectively combated.

In the case of the Hotel, there was reliance on mains pressure and that pressure was insufficient. With so high a building, a fire in the roof—always the hardest to fight in any building—was extremely difficult to get at quickly on the part of the Fire Brigade, but when the hoses were run and the appliances proved sufficient to pump a good

There has been much comment on the fact that leaky hose pipes caused much loss of water and lack of pressure at the nozzles, but we are in a position to state that the Fire Brigade hose is all practically new and of the best possible quality. Much of the leaky hose was that belonging to others and used mainly by appliances pumping water from the Praya. A curious fact in connection with hose in Hongkong is the rapidity with which it rots and perishes after having been used in the West Point district. The theory is that much native merchandise, containing acids or alkalis, is spilled annually out of trucks and bags by carrying coolies and that when a hose is laid on a wet road this acid or alkali attacks the hose and rots it. There have been several cases where brand new hose, used by the Kennedy Town station has perished after only one use.

There has, up to the present, been no official report of the fire prepared either by the Police or the Fire Brigade, these being in hand at the present time.

There was only one fatality—the unfortunate death of A. B. Batchelor—and no serious casualty. Mr. Mandelli, of the Hotel staff, only remained in the G. C. H. for a short while, others who received minor hurts being attended to on the spot by ambulance men and doctors.

The Fire Brigade remained on duty until 11.15 p.m. yesterday and have been at work in the smouldering ruins several times since. Small outbreaks will possibly recur.

THE HOTEL SERVICES.

So far as the Hotel itself is concerned, business as usual is being carried on in the undamaged new portion. The Cafeteria, Bessie's Bar, Dining Room, Roof Garden Tea Dances and Garage Service are all functioning as before, whilst meals *a la carte* (Grill Room style) can be ordered in the Dining Room. The hotel's temporary main office is at the entrance to Mac's Cafeteria, which now becomes the main entrance of the hotel. All the undamaged bedrooms near the Queen's Road end of the building are either in occupation or open for engagement.

Messrs. Thos Cook and Son were this morning carrying on in their old premises, but new offices are, we understand, being arranged for. The men's department of Messrs. Wm. Powell Ltd., has been transferred to the main store in Des Voeux Road, whilst the ladies' department of Messrs. Lane Crawford Ltd., has been transferred to the jewellery department. Pedder Street, excepting the pavement in Messrs. Jardine, Matheson's side, remains closed, bamboo railings guarded by police officers having been erected. Des Voeux Road has been re-opened, and the trams are running as usual. Architects and experts have been surveying the ruins and precautions will have to be taken to prevent falls of charred and cracked masonry. Big "Danger" notices have been posted everywhere leading to dangerous points.

Curious freakish incidents have come to light now that an exploration of the ruins is more or less possible. Quite a number of those whose rooms were in the actual fire area have found that their rooms have escaped being gutted and much personal property, previously thought destroyed, left almost intact.

Regarding the page of excellent

WHITE GLOVES.

PRESENTATION AT POLICE COURT.

On Wednesday last, there were no new cases down for hearing before Mr. R. E. Lindsell, at the Central Magistracy, and as this constituted a unique event in the history of the Colony, it was decided to present Mr. Lindsell with a pair of white gloves.

The presentation was made by the Captain Superintendent of Police, Mr. P. J. Wodehouse, C.I.E., this morning. He said:—"If I may be allowed to interrupt, I wish to congratulate you. I think last Wednesday there was not a single case in this Court not even a hawker. I think this event is probably absolutely unique in the annals of the Colony. We all hope, for the good of the Colony and the neighbouring provinces, that the present state of affairs may soon come to an end, and normal communication be restored. Yet, from the purely police point of view, we should like the present conditions to remain as they are. I have now much pleasure in handing to you this pair of white gloves to mark the occasion."

Mr. Leo D'Almada said, as the only solicitor in Court he wished to associate himself with Mr. Wodehouse's remarks. He congratulated Mr. Lindsell on behalf of the profession.

In replying Mr. Lindsell said:—"I thank you for this interesting token of recognition for an event, which, I agree with you, is, so far as I know, quite unique. At the same time, I think it is rather you and your force that should be thanked. I thank you."

FIREMAN'S DEATH.

FATAL FALL AT WANCHAI.

A fatal accident befell a Chinese member of the Hongkong Fire Brigade at Wanchai. It appears that the man, whose name is Wong San, living at 4 Irving Street, and who only recently joined the brigade, was on a hook ladder on a structure for drying hose at the Wanchai Fire Brigade station, when the ladder swayed, and the man fell to the ground, a distance of forty feet. He was taken to the Government Civil Hospital, where he later succumbed.

BULGARIAN CABINET.

RESIGNATION ANNOUNCED.

Sofia, Jan. 3. The Zankoff Cabinet, which has long been in a precarious position, resigned to-day.—*Reuter*.

pictures appearing elsewhere in this issue to-day, the two bottom pictures on the page are by Ming Yuen, and the remainder by Mee Cheung.

COMPANY'S TRIBUTE.

Mr. W. J. Hawker, Manager of the Hongkong and Shanghai Hotels, Ltd., writes us under to-day's date as follows:—"I beg you to be so kind as to permit me on behalf of The Hongkong and Shanghai Hotels, Ltd., to give expression in your columns to the thanks of this Company for the splendid services rendered by so many willing helpers during the fire that occurred in the Hongkong Hotel on the 1st instant. The Fire Brigade, the Police, the Navy, the Army, Government, officials, Hospital and Ambulance services, Boy Scouts—all were represented, and everybody worked strenuously at the task of overcoming the fire. Had such assistance not been readily forthcoming, there is no doubt but that the results of the outbreak, serious as they are, would have been terrible in the extreme. It is with the deepest sympathy that the death of one heroic helper has to be recorded, and no words can express our heartfelt regret for the loss of the gallant seaman. To all who so generously assisted in the time of trouble, the Company is deeply indebted and sincerely grateful."

CANTON ARMY.

BIG NEW YEAR'S DAY REVIEW.

GEN. CHANG PRESENT

General Chang Kai-shek arrived at Whampoa on the last day of the year, and paid a short visit to the Military Academy. Later in the day he went up to Canton, making his landing privately. Consequently no demonstration of any kind took place. On the following morning, at an early hour he proceeded to Government House to present his New Year greetings and respects to the Committee of political Affairs, and afterwards he took part in the grand review of the troops on the East Parade Ground.

This review of troops was the biggest ever seen in Canton. Over two hundred civil and military officers and more than 20,000 troops took part. Among the civil officials present the most prominent were Messrs. Wang Ching-wai, Chan Kung-pok, Kum Kai-kwong, and G. C. Wu, whilst the military officers included Generals Chang Kai-shek, Tan Yen-kai, Che Pui-tai, Chan Ming-shie, Wong Kung-mow, Li Fook-lum and others. General Chu Pui-tai was the General Officer Commanding.

After the inspection Mr. Wang Ching-wai and Mr. Borodin addressed the rank and file and complimented the troops on their smart appearance. They also thanked, on behalf of the Government, both officers and men for the many deeds of valour performed during the recent operations in the east, west, and south, and south sectors. Mr. Wang urged the troops to further efforts in the cause of the revolution, which he said, lay nearest to the heart of their late chief, Dr. Sun Yat-sen, who, in his will, enjoined them to carry out the Three People's Doctrine both in spirit and in letter and with unremitting effort to prosecute the revolutionary movement to its final accomplishment.

After the review, a portion of the troops took part in a big procession organized by the members of the Kuomintang and of the Kwangtung Unification Association. The procession was a monstrous one. There were over 160 Unions and societies represented, whilst students of forty schools took part in the demonstration. The whole city was in gala attire and the Nationalist flag could be seen flying from every house. Many bystanders carried miniature Nationalist flags. It is said that it took nearly two hours for the procession to pass a given point.

STRIKE DELEGATES.

FIVE RETURN TO HONGKONG.

Five out of the six representatives of the Hongkong merchants who went up to Canton on Thursday last, returned to Hongkong on Saturday by the s.s. Lung Shan. On the same day, at 8 o'clock in the evening, the s.s. Paul Beau brought back 190 of the Fraternity Party. The remainder have obtained special permission from the Strike Union to remain in Canton and they will return later on.

SYRIAN PEACE.

FRENCH COMMISSIONER'S ADVICE.

Paris, Jan. 2. Aeroplanes yesterday dropped a proclamation from M. de Jouvenot to the Druses, advising peace. The proclamation stated:—"The only way for you to win is to lay down your arms."—*Indepct.*

SHANGHAI TRAGEDY.

BRITISHER SHOTS HIMSELF.

"Oh! I'm fed up!"

These are the last words attributed to Wallace Powell, a British employee of S. J. David and Co., Ltd., who rose from his dinner table on Christmas Eve, walked across to a cabinet, and shot himself, dying on Christmas Day in the Shanghai General Hospital.

The tragedy occurred at the Burlington Hotel, Bubbling Well Road, and Mr. and Mrs. Powell were dining together in their room.

During the course of the meal, it appears, deceased had some difficulty with the servants, but there was no indication that he was about to take the grave step he did.

The Bubbling Well police station was immediately informed of the affair, and Insp. Foley, Det. Sub-Insps. W. J. McDermott and other officers went to investigate, arriving at the Hotel at about 9 a.m. They found Powell lying unconscious. There was a bullet wound on one side of the head, the shot going right through and passing out at the other side. The bullet was found embedded in a wall. By the side of the man was a fully loaded revolver but for the shot which ended his life.

Mr. Powell was removed at once to the General Hospital, and at first it was thought he would recover. He died, however, on Christmas morning.

On December 26th, Mr. G. W. King attended the hospital mortuary and opened an inquest on the body. Only evidence of identity was taken.

Mr. R. W. McCabe, manager of the Burlington Hotel, recognized the body as that of Wallace Powell, who had been living at the Hotel since March 1st.

The inquest proper will be held upon the completion of medical and police investigations. Mr. Powell, it is understood, served during the war in Mesopotamia, where he suffered a serious attack of sunstroke.

MARRIED AT SEA.

SHANGHAI MAN'S XMAS DAY WEDDING.

News of the marriage of Mr. Maurice Benjamin to Mrs. Rose Chao was received in Shanghai on December 26th by means of a radio message to a friend.

The ceremony took place on Christmas Day aboard the s.s. President Jefferson, when the vessel was one day's journey from Shanghai, on her way to Hongkong. The master of the Jefferson, Capt. Nichols, united the couple, who will spend their honeymoon, extending over a fortnight, in Hongkong.

Mr. Maurice Benjamin is a well known Shanghai resident and was at one time a member of the Municipal Council. He is a director of the Shanghai Land Investment Co., Ltd., and has numerous other business interests in Shanghai.

AMATEUR RADIO.

HONGKONG NEWS PICKED UP FROM HOME.

A local wireless enthusiast, working on his self-made set, on January 2nd picked up the news of the Hongkong Hotel fire as broadcasted from the new station at Rugby, England. The Home public were given full details of the fire and informed that H.R.H. Prince George took some part in the organisation of the naval branch of the fire-fighting services. On the previous day the same person listening in picked the Rugby broadcast of the New Year Honours giving the news of the knighthoods conferred on His Excellency the Governor and on Sir Chow Shou-son.

THE ATHERLEY TRIAL.

PRISONER'S TRANSACTIONS WITH SHARE BROKERS.

BOTTOMLEY CASE QUOTED.

The trial of Mr. J. E. Atherley, ex-manager of Messrs. Getz Brothers and Co. (of the Orient) Ltd., commenced at the Criminal Sessions before Sir Henry Gollan this morning.

Mr. F. C. Jenkin who is conducting the case for the prosecution, made a lengthy opening detailing Atherley's transactions with sharebrokers in 1924, and pointing out the coincidences of payment into his own account of sums exactly similar to those he received from his comrade on behalf of his firm.

The case in which James Edward Atherley, former manager in Hongkong of Messrs. Getz Brothers of the Orient, is charged with misappropriation of monies belonging to the firm, opened before the Chief Justice (Sir Henry Gollan) at the Criminal Sessions this morning. Accused is indicted on four counts of fraudulently converting to his own four sums amounting to \$3,275, these counts being:

(1) That on the 24th March, 1924, he did fraudulently convert to his own use and benefit the sum of \$1,641 received by him for and on account of Messrs. Getz Brothers of the Orient; (2) on the 25th March, 1924, a sum of \$1,102.82; (3) on the 26th March, 1924, a sum of \$73.50; and (4) on the 28th March a sum of \$447.68.

The accused returned a plea of not guilty to all counts.

Mr. F. C. Jenkin (instructed by Mr. Pryor, of Messrs. Wilkinson and Grist) appeared for the prosecution, and Mr. Elsiey Zeitlyn (instructed by Messrs. Hall and Hind) defended the accused.

A JUROR'S NAME.

The jury having been called, counsel for the defence raised the point that the name of one of the jurymen (Mr. A. A. da Rosa) was reminiscent of one of the witnesses to be called for the prosecution. Mr. Zeitlyn asked if Mr. da Rosa of the jury was identical with Mr. da Rosa for the prosecution.

It was explained to the satisfaction of counsel that Mr. F. K. da Rosa, employed by Messrs. Getz Brothers, the witness referred to, was a different person from Mr. A. A. da Rosa of the jury.

Prior to the opening of the case, Mr. Zeitlyn said that owing to the fact that accused was not released on bail, his preparation of the defence had been considerably hampered, and he made an application that Mr. Atherley be permitted to be seated next to counsel at the table, so as to be conveniently at hand.

PROSECUTION OPENS.

Mr. Jenkin, in opening the case for the prosecution, said that this indictment was in respect of four sums totalling \$3,275, belonging to the accused's employers, Messrs. Getz Brothers of the Orient. Mr. Atherley was manager in Hongkong of that Company and was appointed to that post in or about the month of August, 1922. Messrs. Getz Bros. were well-known to them as a Californian Company and best-known to the public for the importation into the Colony of various well-known brands of tinned provisions and foods. They did a considerable business with Chinese dealers. The office staff, over which Mr. Atherley presided as Manager, of necessity included a comrade's department. This was not unusual in foreign firms, and in the case of Messrs. Getz Brothers was engaged mainly for the purpose of collecting from Chinese debtors of the firm amounts which were due to Getz Brothers in respect of goods imported on the orders of these Chinese dealers. The office staff proper would, of course, be distinguished from the comrade's staff, in that the comrade's staff came directly under the comrade's supervision, although in this case, as in many others, certain of the comrade's staff were under the comrade's agreement, made employees of

AN IMPORTANT DATE.

The second point dealt with by counsel, after the matter of office routine, was that of dates which counsel commented on as one possessing great significance:

March 24th, 1924, counsel said, was one of great significance in the case.

On March 24th, 1924, Mr. Atherley opened a private account in his own name and in another bank, the International Bank.

March 24th, 1924, was also the eve of the March Settlement Day of the Local Share Exchange. On March 24th, 1924, the office routine of the local branch of Getz Bros. was changed in a very radical manner under the instructions of Mr. Atherley.

On March 24th, 1924, for the first time, the monies in the Company, instead of going into the Chartered Bank to (Continued on Page 7)

FATAL MOTOR MISHAP.

POLICE COURT SEQUEL.

When a Chinese motor car
cleaner was backing a car on the
Praya East on December 12th, the
car knocked down a Chinese, injur-
ing him in the left ankle. The
cleaner took the injured man to a
chemist, bought him some
Chinese medicine, and gave him
some money. The injured man
subsequently went to hospital and
died four days later. The cleaner
did not make any report of the ac-
cident, either to his employer or
the police, and he was summoned
at the Central Police Court this
morning, before Mr. R. E. Lindsell,
for failing to report the accident.
Defendant admitted the offence,
and was fined \$50.

THE LONGITUDE OF
HONGKONG.

HOW RECENT ERROR
WAS DETECTED.

In the Hongkong Government
Gazette of December 4th, appeared
the following notification:—

"It is hereby notified that
from 1st January, 1926, the
adopted longitude of the Royal
Observatory Hongkong, will be
7h. 36m. 41.26s. East of Green-
wich, in place of 7h. 36m. 14.86s.,
which observations of the Bor-
deaux rhythmic time signals have
shown to be wrong."

Like many official notifications,
this is extremely brief, and en-
quiries at the Royal Observatory
have produced the following state-
ment:

The significance of the notice in
question was probably lost except

to mariners, the sole comment in
the local press being to the effect
that the geographical position of
Hongkong was 61 miles in error.
The error in the position of the
Royal Observatory on this account
is actually about 260 yards, and
the effect is that the timekeeping
at the Observatory has been six-
tenths of a second too slow since
its inception. For all but methods
of extreme accuracy, this error is
negligible, but some account of the
means by which this relatively
small fraction of the earth's cir-
cumference was determined may be
of more than passing interest, illus-
trating, as it does, an application
of radio telegraphy.

The longitude of a place may be
defined as the interval between
the meridians of Greenwich and
the place in question, measured on
the equator of the earth. This
interval may be expressed as the
arc of a circle (degrees, minutes
etc.), or as a fraction of the period

of one revolution of the earth.
For most purposes, longitude is
conveniently expressed in time, and
the statement that a place is six
hours East and another six hours
West of Greenwich, indicates that
the meridians of the two places are
half the earth's circumference
apart, and one quarter of the
earth's circumference distant from
Greenwich on either side.

The longitude of a place is ascer-
tained by determining the differ-
ence of local time at Greenwich and
the place at the same instant.
This somewhat paradoxical state-
ment is understood when it is re-
membered that local time depends
on the observation of astronomical
phenomena produced by the earth's
rotation on its axis, and such phe-
nomena occur six hours earlier or
later at a place "A" compared with
another place "B," accordingly as
the meridian of "A" is one quar-
ter of the earth's circumference
east or west of the meridian of
"B."

Longitude has been progressively
determined by the observation of
the moon's apparent position with
reference to the stars, the trans-
portation of chronometers, and the
exchange of telegraphic signals.
The latter is infinitely the most
accurate method, but its utility is
limited owing to the difficulty of
obtaining direct communication by
telegraph over great distances.
During recent years these limita-
tions have practically disappeared
by the utilization of radio-tele-
graphy: the signals of powerful
transmitting stations can be heard
under favourable circumstances by
all well-equipped stations on the
earth's surface, and it is thus com-
paratively easy to ascertain the
time at far distant places. Green-
wich time is now broadcast from
many places having facilities for
its determination, and the problem
of ascertaining the longitude at
sea has been simplified for vessels
possessing wireless installations,
in that a complete check can be
kept on chronometer errors and
rates.

Doubts as to the accuracy of the
longitude of Hongkong were caused
by the observations of the wireless
time signals emitted by other ob-
servatories of the Far East, which
showed that Hongkong was con-
sistently slow. To date it has not
been possible to discover the means
by which the longitude was origi-
nally determined: the almanacs
state that it was made by Com-
mander Green, of the U. S. Navy,
presumably about 1884, the
method used may have been the
transport of chronometers or the
exchange of telegraphic signals
between Hongkong and another
port, and whatever the accuracy
of the methods may have been, the
result would still have been liable
to error if any error was present
in the longitude of the reference
station.

A method of determining longi-
tude by direct reference to Green-
wich is obviously the observation
of the same radio signal by Hong-
kong and Greenwich. The differ-
ence between the accurately deter-
mined local time of emission of
the signal by Greenwich and Hong-
kong is, of course, the actual
longitude of Hongkong, the zero
meridian being that of Greenwich,
by international agreements.

The continued improvements in
the radio receiving set of the Royal
Observatory, Hongkong, eventually
made it possible to observe the
time signals emitted by the power-
ful station of Bordeaux in France.
It was known that this station was
regularly received and recorded at
the Royal Observatory, Greenwich,
and enquiry elicited the fact that
signals had been simultaneously
observed by both observatories on
about 12 occasions. A compari-
son with the Greenwich times, sup-
plied by courtesy of the Astronom-
er Royal, has conclusively shown
the error mentioned in the Govern-
ment notification. The determina-
tion is of an accuracy much superior
to that of any previous determina-
tion.

The results have been utilized
by accelerating the clocks of the
Royal Observatory by 0.61 sec.,
since midnight, 31st Dec. 1st Jan.,
the first intimation to the public
being given by the time ball at 10
a.m. on January 1st.

A seven passenger twin-engine
flying boat, which it is said will
revolutionize the aerial fire fight-
ing methods employed by the
Government protective patrols,
is being tested at the Dominion
Government Airfield at South-
Marsh, near Ottawa. If satis-
factory it will be flown to Man-
itoba where it will take on fire
preventive duties in one of the
most important forest areas.

FLAGSHIP'S DANCE.

SUCCESSFUL FUNCTION AT SEAMEN'S INSTITUTE.

Ring in the New Year.

A very successful dance was held at the Seamen's Institute on New Year's eve, arranged by the Entertainment Committee of H. M. S. Hawkins.

There was a large attendance and everyone enjoyed the pleasant evening, especially the ringing of the Old Year out and the New Year in, on a large bell landed from the ship, by Paymaster Commander A. C. Roo, R. N., who was applauded by the singing of "For he's a jolly good fellow," and the linking of hands and singing of "Auld Land Syne." Great praise is due to Petty Officer Jacobs and Able Seaman Faithfull for the exceptional way in which the Hall was electrically decorated. Pleasant and suitable music was rendered by the Ship's Dance Orchestra under Petty Officer Writer Hall, and the duties of M. C. were carried out by C. P. O. Bryan.

Carnival novelties were also in evidence and a pleasing feature was the pains taken to match the ladies' dresses with the erpe hats.

A noticeable feature was the large attendance of the Ship's Officers who appeared in uniform.

After the interval a speech was made by the Rev. G. T. Waldegrave, who asked to be allowed to take up a very little of the company's time, an act he was sure they would pardon when he had finished. He said that as most of those present knew the present commission of the Flagship were shortly returning home, nice for them but and for those left behind. The staff of the Seamen's Institute could not, however, let them go without saying how very much they appreciated having the ship's dances held there, and all the more because of the great help given by the Dance Committee. Though all worked well, and how well only those who attended the dances, and especially such dances as that held in honour of the French flagship Jules Mitsuichi, could tell, there were certain members of the Committee whom they had got to know particularly well.

First of these was the Secretary, Mr. H. Tille, whose unfailing energy and courtesy were most marked and whose readiness at all times to fall in with the wishes of the management of the Institute they so greatly appreciated, in token of which he asked him to accept a small gift. Mr. Tille then came forward and was presented amid loud applause with a silver cigarette case. Two members who had always given special help were Messrs Jacob and Faithfull, each of whom were presented with "doll" mascots, chosen specially for them by one of the Institute staff, because they were such "boys." They received and unwrapped their gifts amid applause and laughter.

The Chaplain concluded by wishing all present in the name of the Missions to Seamen a very Happy and Prosperous New Year, and the second half of the Dance then commenced.

It is understood that the Hawkins will hold further dances on the 7th and 14th instant and will conclude their social programme with a farewell dance on board ship before the present ship's company leave for England.

GOLF.

KOWLOON G. C. AT HAPPY VALLEY.

Yesterday the Kowloon Golf Club members were guests of the Junior Section of the R. H. K. G. C. at Happy Valley, this being a return for the hospitality of the Peninsula club when the Valley was suffering from floods and no play was possible.

At Kowloon in October the Happy Valley players were rather overwhelmed, both by the play and the generosity of their hosts, and were only too ready to return the compliment yesterday. Right to the end of the day, the result was in doubt, the home team eventually winning by 15½ to 13½ points.

Singles were played in the morning, 30 players going out. Most matches were very close and more than one finished on the last green. Nine Happy Valley won their singles and one match was halved, the scores being 9½ to 5½.

In the afternoon the visitors had the advantage, and scored 8 points to six, leaving Happy Valley winners by two points.

Excellent tiffins and teas were served by Cafe Wiseman and an exceptionally enjoyable day spent by everybody. All the players will hope that these interesting inter-club fixtures may be made more or less permanent ones.

At the tiffin interval, Mr. V. C. Labrum, on behalf of Kowloon, thanked Mr. Beardall and the Happy Valley team for the enjoyable game and their hospitality. He offered the toast of the Happy Valley Junior section, which was enthusiastically drunk with musical honours.

Mr. Beardall, captain of the home team, expressed the pleasure it gave them to entertain Kowloon and hoped that the fixture would not be the last. He thanked Mr. D. J. Brown who had acted as secretary for the occasion, remarking that without his help the day would not have been possible. He also thanked those who looked after the tiffin arrangements and Mr. C. A. Grimes for superintending the refreshments on the liquid side.

CORRESPONDENCE.

[To the Editor of the Hongkong Telegraph.]

LESSONS OF THE FIRE.

Sir,—With regard to the Hotel fire, whilst recriminations are useless, it is high time that the papers, as professed exponents of public opinion, should expound the great dissatisfaction which the public is, and has for some time been, expressing privately.

This fire is only the latest of a series, all of which entailed great and unnecessary loss of property and some lives. It is hard to recall a single report of a fire which has not opened by saying that the firemen were handicapped at the start by lack of pressure, but when—etc., they soon got the better of it.

To come back to the Hotel fire, there are several witnesses to the fact that had there been any pressure at all on the 4th and 5th floors, there would have been no fire at all to speak of. The sight of willing volunteers standing impotently by, pointing empty hoses at the small flames, and watching it gradually take complete charge, was enough to make the fire fiend laugh aloud with malicious joy and glee.

We all know the supreme indifference with which the authorities here treat public opinion, and that it requires quite a number of retaining walls, for instance, to collapse before they can be persuaded to have an enquiry as to why a retaining wall does not retain, but surely there has been enough damage done to life and property by totally unnecessary fires for even Hongkong's self-complacent mandarins to begin to take notice.

A public enquiry is badly needed to fix responsibility for the present unsatisfactory state of affairs, with impartial commissioners and counsel to represent the public. Of course, we all know the eel-like propensities of Government Departments when it comes to the question of responsibility, but there are one or two leading Councils in this Colony who could be relied on to even cope with the tergiversations of a Government Department.

Whilst on this subject, can you tell us what the objection is to installing a salt-water reservoir and pumping station on the Peak, and using it for not only fires, but all street-watering and flushing purposes? Why all this unnecessary waste of water, when every year there is a shortage, and not much prospect of conditions changing?

Also, what happens in the rider-rain district if a fire is inconsiderate enough to start during prohibited hours?

Finally, if no one else will take up this question of fires in Hongkong, could not the head offices in England or America be informed of the state of affairs here, and how much money they are paying out on account of this.—Yours, etc.,

ONLOOKER.

NEW TRAMWAY
NEEDED.

Peak residents who hoped that the passing of a vote by the Legislative Council on Tuesday to cover the cost of a survey of a suggested route for a new tramway from Murray Barracks to Wanchai Gap implied that this undertaking would shortly be put in hand, will no doubt be disappointed to learn that the scheme has for the time being been shelved. All the same, whether this particular route or any other be chosen, the time will assuredly come when some such scheme will have to be adopted. Apart from the congestion on the existing system, which, despite the admirable efforts that have been made to cope with it, is still very marked at certain hours of the day, the great fact remains that various parts of the hill district have been so opened up for the building of houses that scores of homes are far removed either from the terminus or the intermediate stations of the present Peak Tramway. It is true that the motor road to the Peak has been of benefit to several residents, but for the ordinary householder who does not own a car it is an expensive business to get to and from town by means of motor-car. What is badly needed is a new tramway system which will skirt the face of the island and come out at the eastern end of the Peak, where in recent years there has been considerable residential development. It may be that at present the military lands deadlock holds up such a scheme as this, but it ought to be possible to map out a route, possibly in conjunction with the present system, by which unoccupied land could be utilised for this purpose and the release thereof be arranged with the War Department.

In recent years, one or two schemes have been suggested for the provision of a new tramway route, and the fact that matters have gone so far as to make rough

surveys is sufficient to show that the need of an extended service is recognised. Whatever the means adopted, it is clear that there is a distinct call for better transport facilities to outlying districts on the higher levels, and the putting of a scheme into operation ought not to be unduly delayed. So far as the eastern part of the Peak is concerned—that is, the area within reach of the motor road—a vast improvement on existing services would be effected if there were motor-buses running to and from the city, and we imagine that there would be considerable patronage therefor if a tariff could be arranged anywhere near the Peak Tramway rates. This, of course, would be a matter for private enterprise, and possibly a canvass of the district would disclose whether such a venture would be commercially profitable.

Rain-Making.

The news that one of the Professors at Hongkong University is experimenting in rain-making, disclosed at Tuesday's meeting of the Legislative Council, has caused a considerable degree of interest. The fact that the Government has made a grant towards the necessary apparatus shows that official cognisance has been given to what might prove of great scientific value. We do not know whether Hongkong will benefit very much were its fogs turned into rain, considering that foggy weather usually coincides with damp days, but if the researches lead to the banishing of our peak fogs (even in the form of raindrops) there should be a considerable section of our population who will be thankful to the Professor. Commenting on the subject from an entirely unscientific standpoint, we recall our physiography lectures at school, when the elements of rain-formation were installed into our minds as being the somewhat sudden cooling of moisture-laden air, principally through its ascent to upper regions of the atmosphere, such as happens when a current of air strikes a mountain-side. Our Peak mists are no doubt caused by the fairly rapid formation of moisture particles against the hillsides. We recall various methods of rain-production, one of the best-known being the causing of sudden pressure or other disturbances in a moisture-laden atmosphere, "by firing with cannon at hovering clouds. An ingenious invention announced some years ago was the firing of a large ring of metal out of a funnel-shaped gun, thus causing something of a minor cyclonic disturbance in a cloud belt, and bringing down rain. Latterly, there have been reports of American experiments in the clouds with "electrified sand" (whatever that is) scattered from aeroplanes. Perhaps Hongkong is about to gain additional publicity through being the home of an even more intriguing means of rain-making.

World Wireless.

The news of Marconi's conclusion of arrangements for operating a world-wide system of wireless comes as a sequel to many months of negotiations and preliminary reports, and finally places the scheme in the list of early accomplishments. The question of whether this radio service—or rather linked service—will prove a serious rival of the cable companies has been discussed a great deal in the past year or two, and the general conclusion, which there appears to be no reason to alter, is that the cable services will continue to hold an important place in the scheme of communications all over the world. In the case of special conditions, the cable telegraphs must remain paramount, as they are proof against even the most adverse atmospheric disturbances, but in a general way wireless will serve a big demand for more accommodation over a wider area. The newspaper press is not the least of the concerns interested in the development of radio communication all over the world. Perhaps, in time, the cost of wireless will be cheaper than at present, and the service obtain an even larger clientele. One of the chief effects of the new Marconi contracts is the linking of all parts of the British Empire by means of the big "beam" stations, and the announcement made by Router on Saturday contains the interesting intimation that these inter-Empire services

DAY BY DAY.

EVERY HEART THAT HAS BEAT STRONG AND CHEERFULLY HAS LEFT A HOPEFUL IMPULSE BEHIND IT IN THE WORLD, AND BETTERED THE TRADITION OF MANKIND.—R. L. Stevenson.

The opening rate of the dollar on demand to-day was 2s. 4.7/16d.

The P. & O. liner Delta, which left Singapore on the 2nd instant, at 7 a.m., is due here at 6 a.m. on the 8th instant.

Mr. and Mrs. A. S. Harrison and Mr. H. C. Shrubsole were passengers arriving here from Manila by the s.s. President Wilson.

His Excellency the Governor has appointed the Rev. G. R. Lindsay to be Honorary Visiting Chaplain to the Kowloon Hospital.

The s.s. Empress of Asia will sail from Hongkong at daylight on Friday, the 8th instant, one day later than previously announced.

In the Adamson Cup seventh qualifying competition, played at Happy Valley on December 27th, Mr. T. Bateman qualified with a score of 84—107 minus 23.

Mr. H. E. Goldsmith, Executive Engineer in Charge of Roads, returned on the President Wilson from a short visit to Baguio, accompanied by Mrs. Goldsmith.

St. Andrew's Church Vestry is faced with heavy liabilities, but has decided to rely on freewill offerings rather than bazaars or similar methods. A sum of \$3,000 is needed.

The Hongkong Hotel bus service will start from outside Mac's Cafeteria, instead of Statue Square, as announced in an advertisement appearing elsewhere in this issue.

After-dinner dancing will take place nightly in the Roof Garden of the Hongkong Hotel from 9.15 p.m. to midnight. There will be no charge, to dinner, but non-diners will be charged one dollar per head.

Amongst the passengers who arrived here by the Empress of Russia were Mr. and Mrs. H. Humphreys, Lieut.-Col. Montague Bates, Mr. G. M. Young, Mr. J. Behar, Mr. C. M. Mannors, and Mr. P. W. Massey.

News has been received by the Procure des Missions Belges, at Shanghai, from their Central mission station, Ninghsia, Kansu, that Rev. Father Mevis, the Catholic priest who was captured last month by a gang of 30 bandits, has been released. No further details are at present available.

Much sympathy goes out to Mr. J. H. Taggart, the Managing Director of the Hongkong and Shanghai Hotels, Ltd., in connection with the disastrous fire at the Hongkong Hotel, as he is at present a patient in the Peak Hospital. His many friends will wish him a speedy recovery to health.

The St. Andrew's Church Christmas carol choir, which, under the direction of Mr. J. C. Loyal, visited various districts in Kowloon during the festive season, collected a sum of \$251.62, which is to be divided between the Church Pastoral Aid Society, the Hongkong Benevolent Society and the Missions to Seamen.

A settlement was reached in the strike at the Commercial Press, Ltd., Shanghai, on Christmas Day, but the negotiations followed a very arduous disturbance which compelled Chinese soldiers guarding the Paoshan Road factory to use their rifles after four soldiers were injured by a shower of stones hurled at them by a large crowd of strikers. Colonel Liu, in charge of the soldiers, gave orders to fire and 20 shots were fired over the heads of the strikers. Six or seven men were injured and the soldiers charged at the crowd with fixed bayonets and arrested 43 of the ring-leaders.

will be in operation early this year. Much has been going on "behind the scenes," whispers of which have reached the public, and it is gratifying to learn definitely that all obstacles have apparently been overcome, and the ideal of Imperial radio communication is about to be realised.

TOBACCO SEIZURE.

CASE TO BE RE-HEARD.

As a result of the seizure of 57 bales of raw tobacco at Yaumati breakwater on Monday last by revenue officers, a confiscation order was later obtained.

The case was recalled at the Central Police Court this morning, before Mr. R. E. Lindsell, when an application for a re-hearing was made by Mr. Leo d'Almada.

Mr. J. D. Lloyd, Superintendent of the Imports and Exports Office, said he appeared to see that Mr. d'Almada satisfied the Court that the persons he was representing were really the owners of the tobacco. After that, the question could be gone into as to the circumstances under which the tobacco was brought to the Colony.

Mr. d'Almada said the facts appeared to be that the consignment of tobacco was sent from Canton in a fishing junk to the port of Hongkong, and was seized by the revenue officers. An agent of the owners subsequently interviewed Mr. Lloyd, and asked to be allowed to pay the necessary duties, but he was apparently dissatisfied, and he told the agent to go to the Court on the next morning. The agent understood, however, that he was to appear before Mr. Lloyd at his office, and that was the reason why he did not come to Court. Now that the man was in Court, he had evidence to show that he was the rightful agent for the owners, and they were prepared to pay the necessary duties.

Mr. Lindsell said he saw no objection. He would adjourn the case until Friday, and Mr. Lloyd and Mr. d'Almada could discuss the matter together.

DEATH OF MR.
DENMAN FULLER.

FORMER CATHEDRAL
ORGANIST.

It is with the deepest of regret that we have to chronicle the death of Mr. Denman Fuller, F.R.C.O., for many years organist of St. John's Cathedral, which took place in a nursing home in Bournemouth on Christmas Day, after a long and painful illness.

For something like sixteen years, the late Mr. Fuller was organist and choir-master of St. John's Cathedral, holding the dual position until compelled some two or three years ago to resign on account of ill-health. He was also prominently associated with the Hongkong Philharmonic Society, and was, in addition, Secretary of the City Hall Library and curator of the Museum. Never a robust man, the deceased, during his last few years in Hongkong, suffered greatly from an internal complaint, and it was after several severe operations both here and at home that he was eventually compelled to leave the Colony, being by then a helpless invalid. In spite of his falling health, before his retirement he remained loyal to his post when many another less devoted to the task would have long since given up, and by his organ and pianoforte recitals he raised much money for the Cathedral organ, in the reconstruction of which he did much valuable work.

The deceased, who was 45 years of age and unmarried, was a most talented organist and pianist, and he also composed a number of works, incidentally writing the music for the Hongkong University anthem.

The late Mr. Fuller's numerous friends will hear with the utmost regret of his death and will join in sympathising with his relatives in the bereavement they have suffered.

FRENCH POLITICS.

A SOCIALIST VOTE.

Paris, Jan. 2.
At a meeting of the Socialist Federation of Limoges, the voting was 15 to 5 against participation with the Radical Ministry.—Indopacif.

ALL-NIGHT SITTING.

Paris, Jan. 2.
The Chamber passed, yesterday morning, the vote for provisional accounts for January, after an all-night sitting. Parliament will resume on the 12th January.—Indopacif.

EUROPEAN PEACE.

PRATISE FOR FRENCH
PRESIDENT.

Paris, Jan. 2.
Official receptions were held yesterday with the usual ceremonial. Cardinal Ceretti presenting the Diplomatic Corps at the Elysee, praised the work at Locarno, saying that "it is being demonstrated in France more than anywhere else, and it will be to her glory that are found men of goodwill who are workers towards peace, and there is one amongst all others to whom goes at this time—and that is you, Monsieur le President—our unanimous sentiments of admiration and gratitude for the task which is more than in name your own."

M. Doumergue replied:—"France, that did all in the past to propagate the great principles which constitute to-day the common rights of the people, will attach herself resolutely to realise this high conception of international intercourse on which depends the establishment of peace."—Indopacif.

OBITUARY.

WELL-KNOWN PUBLICIST.

London, Jan. 3.
The death has occurred of Mr. G. H. Mair, C.M.G.—*Reuter*.
[George Herbert Mair has been Assistant Director of the League of Nations Secretariat since 1919. Born in 1887, educated at Aberdeen and Oxford, he joined the editorial staff of the *Manchester Guardian* in 1909, and acted later as leader writer and political correspondent in London. He became assistant editor of the *Daily Chronicle* in 1914, but resigned to do whole-time work first with the Home Office and later with the Foreign Office (News Department), and in the Ministry of Information. He was the director of the Press section of the British Peace Delegation to Paris in 1919, when he was made a Chevalier of the Legion of Honour. The C.M.G. was conferred on him in 1920.]

SUPPRESSING BANDITS.

GEN. LI FOOK-LUM STILL
ACTIVE.

With the co-operation of land and naval forces, a big scheme is now being taken in hand by the Canton authorities for the suppression of bandits and pirates in the West River.

A definite step forward was made on Christmas morning, when General Li Fook-lum, making Yung Kee as his base, commenced operations from four directions by water and by land with the result, it is reported, that three of the bandits' launches were sunk, five captured and many wooden vessels manned by pirates also captured. On land, the bandits were so heavily defeated that they fled in all directions, leaving a great many killed and wounded in their trail. The bandits mostly fled into the districts of Ching Shan and Suei Nai, where engagements are being taken up by troops stationed at pre-arranged points.

In this one concerted action of the troops and Navy, it is expected that the lower reaches of the West River and the delta will be quite freed of bandits.

GREEK RULE.

PREMIER'S ANNOUNCEMENT.

Athens, Jan. 3.
The Premier, General Pangalos, has announced that henceforth he is assuming entire responsibility for the government of the country, and will rely solely on the power of the army and the national conscience to save Greece. He undertook to furnish reasons. Meanwhile the Senate elections have been postponed sine die.—*Reuter*.

ELECTIONS POSTPONED.

Athens, Jan. 3.
It is officially explained that the postponement of the senate elections sine die is due to certain party leaders persisting, giving them a political complexion which will thus defeat the Government's object in obtaining a cessation of the increasing political tension.—*Reuter*.

ATHERLEY CASE.

(Continued from Page 1.)

the Company's Banking account, went instead into the private account of Mr. Atherley at the International Bank.

Counsel commented on what he termed the significance of these changes, and went on to remark that if Mr. Atherley did receive these monies from sources entirely unconnected with his Company, it was a striking coincidence that such monies as he paid into his private account should correspond exactly with the total received from the dealers and duly noted on the deposits slip handed in to him by the compradore at the end of the day.

STRIKING COINCIDENCES.

Counsel lay stress on the fact that accused was in receipt of a salary which worked out in local currency to \$870 a month, and conjectured on how, within a period of five or six days, between March 24th and March 31st, accused was able to pay into his private account sums amounting to \$5,148, which was equivalent to six months' salary. Of course, Mr. Atherley might be able to explain that he obtained this last sum from a source unconnected with the Company, but there again it was a striking coincidence that it should total the amounts received by the dealers and handed over to him at his own request.

In April, within one calendar month, Mr. Atherley had received a sum of \$21,327 which was equivalent to just over two years of his salary. When he got this money, counsel said, he did not know. He would not like to suggest, but so far as his case was concerned he could prove that at least a part of this money could be traced to sums over which the accused had control as Manager of Getz Bros. in Hongkong.

Another significant fact, in counsel's estimation, was that the first cheque drawn upon the accused's private account was for an amount of \$4,022.50, favour of Messrs. Fred Ellis and Company, well-known here as share and stock dealers, the date of this being March 25th, which was the March Settlement Day of the local Stock Exchange, this fact leaving no doubt in the minds of business men that on March 24th there was a pressing need on the part of Atherley to make payment of \$4,022.55 to Messrs. Fred Ellis and Company.

Counsel then went on to deal with the diversion of the monies received by the compradore for and on behalf of the Company, during the course of the day, from the bank into the accused's control. He referred to various amounts. The accused on his own part would give his own personal receipts for the amounts he received from the compradore, and these were surrendered for a final receipt which he gave for the total and accumulative amount of \$13,000 odd.

HORATIO BOTTOMLEY CASE QUOTED.

Mr. Jenkin proceeded to make extensive quotations from the Law Times Reports of the Horatio Bottomley case on the definition of what was, what was not, and what could be embezzlement. It did not matter from whom the prisoner received the money as long as he received it in such a way that it was impossible to say that he received it on account of anybody else.

As manager Atherley had received money from another employee, who was bound to obey his instructions. There could be no question that the money was received by him on behalf of Getz Brothers, and that he would have been obliged to pay it to the President on demand if he had suddenly turned up from California.

Counsel proceeded to give further details of prisoner's transactions with sharebrokers. At the March Settlement, 1924, he paid a cheque for \$4,022.50 to Messrs. Fred Ellis and Co., and at June Settlement Day he paid a cheque for \$4,000 to Carroll Bros., and a cheque for \$1,964.30 to Messrs. Fred Ellis and Co.

In May, 1924, at the date of the Share Settlement, he had paid \$3,000 to some one whom they had been unable to trace.

It was significant that a man earning such a small salary should be drawing a cheque of such an amount on a Settlement Day.

It was also significant that the amount paid out to various people on those three Settlement Days was \$13,076.30, a sum which approximated very closely to the \$13,149 which he was alleged to have misappropriated during the

FORMER HONGKONG ORGANIST.

The late Mr. Denman Fuller, for many years organist and choirmaster of St. John's Cathedral, whose death occurred in a nursing home at Bourne-mouth on Christmas Day.

TAIMOSHAN.

TWO PILGRIMAGES ON SATURDAY.

The well-known peak in the New Territories, Taimoshan, was one of the holiday attractions over the week-end, and the weather was just ideal for the climb.

On Saturday a party of twelve from the European Y.M.C.A., journeying out to Tsinwan by motorcar, had an enjoyable excursion to the top, and, led by a member who was familiar with the route, found the going less trying than it had been on the previous climb on Boxing Day. The summit was reached in about two and a half hours, and after a much-appreciated lunch the party returned to sea-level by an alternative path. The weather conditions could not have been better, and a superb view was obtained from the summit, ships in the harbour being easily discerned, the Hermes being among the most conspicuous.

Another party of climbers, six in number and including four ladies, arrived at the top soon after the others, and descended on the side towards Tai-po.

This climb is only one of the outdoor activities which the Y.M.C.A. have in their programme. It is hoped to arrange a visit to Lantau island in the near future, when the peak there will be tackled, and the outing will probably involve an overnight stay in the huts that have been erected there.

Continuing, Mr. Jenkin said that it was a fact that from time to time money found its way from Atherley's account to the account of Getz Brothers, but at no time, counsel would submit, did Atherley pay back any sum out of his own private monies. He merely handed back out of new misappropriations. He applied money newly appropriated to the part-payment of old misappropriations. All the time the total figure was swelling.

Proceeding on the point of Mr. Atherley's transactions with sharebrokers, Mr. Jenkin pointed out that Atherley had only \$750 to his credit at the bank at the time of the March settlement. He would have been unable to meet Ellis's account for \$4,000 odd dollars had not he paid into his own account cheques for \$1,600 and \$1,100 which he received from the compradore on behalf of Getz Brothers.

Evidence was then called by Mr. Jenkin, the first witness being Mr. Sheldon Munroe, of the International Banking Corporation. He said that Atherley opened an account at the bank in March, 1924, and, as far as he knew, Atherley had never previously had an account at the bank.

Mr. Percy Tester gave evidence as to the names of sharebroking firms doing business in Hongkong in 1924.

The following were the jury:—Mr. P. M. N. da Silva (foreman), Messrs. Maurice Minney, H. L. Stainfield, A. S. da Rosa, E. A. Simon, Shok Ju-man and Sam Man-yan.

The trial is proceeding.

HOLIDAY CRICKET.

NAVY DEFEAT H.K. C.C.

The two-day match between the Navy and the Hongkong Cricket Club ended on Saturday in a win for the naval team by six wickets.

The Navy compiled the excellent total of 332 runs in their first innings (Lieut. Halsey 83, St. Comdr. Armitage 57, Mid. Stephenson 45, Lieut. Sillitoe 45, Lt.-Col. Cantrell 33 not out). Rev. T. R. Powell took 6 Navy wickets for 82. The Club in their first venture compiled 157, only A. W. Hayward (63) and H. Owen Hughes (35) being able to stand up long to the bowling, Lt.-Col. Cantrell taking 6 for 71. Following on in the afternoon on Saturday, the Club did better in their second knock, and compiled 297 (Owen Hughes 45, T. E. Pearce 49), leaving their opponents only 32 to make up. Lt.-Col. Cantrell took 5 for 68.

The Navy compiled 42 for the loss of four wickets, all of which were captured by Bowker, for 17 runs.

LEAGUE MATCH.

The Civil Service Cricket Club met the Royal Artillery in the only League match on Saturday, and it ended in a tie, both sides scoring 149. Major Hattersley Smith contributed 80 to the Artillery score, being undefeated at the end. B. D. Evans took 5 for 31. The Civil Service batsmen who did best were F. J. de Rome (29) and A. E. Wood (39). Lieut. Smith took 4 for 19.

OTHER GAMES.

The K. C. C. and H. K. C. C. contested a friendly match at Kowloon on Saturday, which was drawn. The visitors scored 130 (W. W. Mackenzie 53), and the Kowloon eleven compiled 91 in reply. The H. K. C. C. declared 135 for 4 in their second innings (Parker 46), and the K.C.C. had compiled 131 when stumps were drawn (Ramsey 38, Lyal 37, and Lee 30 not out).

The Chinese R. C. drew with H. M. S. Hawkins at Causeway Bay. The naval team declared at 168 for 9 (Blinn 31, Krier 35, and Smyth 44 not out). The C.R.C. in reply had 216 for 5, Yeoh being 86 not out.

Craigengower defeated Talkon by a big margin in a match at Happy Valley. The Talkon team lacked sting in their bowling, and were 150 in arrears at the close of play.

A Navy team played the second team of the Indian R.C. at Sookun-poo, and the match ended in a draw. The home side declared at 169 for 6 (Wahab 63, not out), and the visitors had scored 121 for 6 when stumps were drawn.

LOCAL FOOTBALL.

JUNIOR MATCHES POSTPONED.

(BY "WANDERER.")

For reasons difficult to ascertain, only five matches were commenced and completed in the Hongkong Football League, and four of these were in the First Division. Two matches started in the "Third Division" came to a premature end, Moslem "B" declining to finish their match with St. Joseph's. Reserves after being two down at the interval. They started with six men. Moslem "A" were a goal up on the undefeated South China "C" when two of the players began to fight and a large number of the spectators invaded the pitch. The arrival of the Surrey, who were playing the Tamar, averted the possibility of an ugly scene but there is certain to be an enquiry into the cause of the disorder. Football form is upset every week as the comparative scores of the R.A., Club de Recreo and Kowloon will show:

Kowloon	8	Recreo	1
Recreo	7	R. A.	1
Kowloon	2	R. A.	2

The Club failed to repeat their previous success over South China and the Police gained an unexpected win over the Club de Recreo. Results:

Division I.			
Tamar	0	Surreys	4
R. A.	2	Kowloon	2
Club	1	S. China	2
Recreo	1	Police	3
Division II.			
Kowloon Res.	2	R. A. Res.	0

Scottish League.

Clydebank	2	St. Johnstone	0
Cowdenbeath	1	Hearts	1
Dundee	1	Raith Rovers	1
Falkirk	3	Motherwell	1
Hamilton	3	Airdrieonians	0
Hibernians	0	Aberdeen	0
Dundee U.	2	Dundee U.	0
Morton	9	St. Mirren	0
Queen's Park	1	Celtic	1
Rangers	2	Partick Thistle	1

Doncaster were leading 1-0 against Grimsby Town, when the match was abandoned 15 minutes after half-time. Owing to the ground being under water, the match between Bristol Rovers and Charlton was postponed.

Kowloon played up with confidence after the interval, but the R.A. were playing kick and rush football which kept the Kowloon defence on the run. For a period of about fifteen minutes nothing appeared to be going wrong for the soldiers and the wonder was that only once did they manage to defeat Vickers. A strong effort by Kowloon kept play confined to the R.A. half and corner after corner was conceded. Just before the end McKelvie received from one of the concessions and shot the equaliser from twenty-five yards.

Kowloon were by no means at their best but should have won. Vickers might have had a chance with the second goal had he remained in, though even so it appeared that Wheeler and Turner after Vickers had been beaten for possession. The half-backs were sound though all three have given better displays, but Linaker and Hayes were the only forwards to show to any advantage. Recreo could not be expected to shine in the forward line though he was an improvement on Taylor at inside-right. McBride put in many excellent centres, but received little support.

The R.A. team played the type of football which often gets goals and generally speaking it is surprising that they have not shown up better in the league tourney. Trim and Nonkes were in good form and the half-backs played consistently well. The forwards had no plan of attack but by first-time passing and hefty kicking made plenty of ground.

POLICE SURPRISE.

Credit for the smart 3-1 on the Police over the Club de Recreo must chiefly be given to Wynne and Clark, though without a doubt the absence of Gosano made the task much easier. The Recreo were the better side in the opening stages but excellent defensive work by Wynne and Harle and a couple of capital saves by Clark, kept them scoreless and eventual forward, defeated Fernandes after some neat play on the right.

The second half went much on the same lines as the first, the Recreo making repeated attacks but failing to make much impression in the goal area. McGinley increased the Police lead, Rocha headed past Clark, and then Simpson made certain of success by netting with a good shot. The Recreo lacked finish, the absence of Gosano making all the difference. Generally speaking they were the better side, the backs giving an excellent display. Rocha and Brown could make little impression on Wynne who gave one of his best exhibitions. He was tackling surely and kicking with judgment and found time to render assistance to his half-backs. Clark was in fine fettle and the forwards were always dangerous.

THE CLUB GO DOWN.

South China defeated the Club by two goals to one after an interesting game. Play was very even throughout and though perhaps the Chinese deserved their success, Tunderstand that two goals scored by the Club were disallowed for small infringements. Suen Kam-shun opened the scoring for the Chinese after ten minutes play, and subsequently play went much in their favour, Rodgers being tested several times. Forsyth equalised just before the interval but the winning goal fell to the Chinese after both goals had been narrow escapes. Suen burst through shortly before the end and netted from close range.

McBride came in at inside-left and effected some improvement though he was inclined to wander into the defence. Howard led the line well and he essayed shots from all ranges without success.

SURREYS SCORE FOUR.

The Surreys kept the Tamar more or less on the defensive throughout and the naval eleven lost their sixth consecutive match by four clear goals.

A fast first-half saw the Surreys always attacking but Humberstone's shot mid-way through was the only one to meet with success. After the interval Butler scored a second from Humberstone's pass and the same player netted when a penalty was awarded for hands against Smith. Charlesworth scored the fourth before the final whistle blew.

McGreavy, Mitchell and Britton gave the Tamar forwards little rope and considering the extent of the supremacy of the champions, the only surprise was that the score was not even more pronounced.

NOTORIOUS CRIMINAL.

SMART CAPTURE IN KOBE.

Many a Kobe household will rest more easily to-night, thanks to the successful work of the Sannomiya Police in running a notorious criminal to earth, says the *Kobe Herald* of Dec. 12th. We refer to a Kobe man named S. Onishi, alias Kenji Morikami, an ex-convict, whom the authorities have been anxious to get hold of for some time past. By reason of his daring robberies 17 or 18 years ago and his numerous successes in evading detection and pursuit, Morikami Kenji—to use his assumed name, by which he is known throughout Higo Ken—has terrorized a great number of people here. How far he has been responsible for the frequency of robberies in this part of the country recently remains to be seen. For some time past the house occupied by his mother and elder brother—respectable people—in Nunobiki-dori, as the Police felt sure that he would return there sooner or later, if only to bid them a final farewell, it is supposed that he knew full well that when he next entered prison it would mark his end. The man was released from prison where he was serving a sentence of imprisonment for life in August, 1923, when several prisoners were given the benefit of an act of clemency. While serving his sentence he formed a close intimacy with another notorious criminal who was arrested here not long ago. It was through confessions extorted from this man that the authorities discovered that Morikami Kenji was at his old game.

IN WOMAN'S DRESS.

The desperado was cleverly nabbed early this morning in a small cafe in Kitagasaki-dori. Attired as a woman in costly clothes he was sleeping in one of

the rooms when a squad of Police entered the house.

Knowing the character of the man they were after, and his cleverness in eluding capture, a cordon of police—300 are said to have been engaged—was drawn about the neighbourhood. On awaking and finding himself confronted by several policemen the man pulled a revolver from his clothing and levelled it at the foremost officer, but by a piece of good luck the weapon missed fire, and the dangerous fellow was soon over-powered and secured and marched off to the Sannomiya Police Station. The Police are to be congratulated on ridding the city and prefecture of a notorious criminal who has long been "wanted" for numerous grave crimes. Oddly enough, on the occasion of his arrest in July, 1908, the man was captured while sleeping in a small *Yadoya* at Mikage, and it was only through a pistol slipping out from his clothes that a proprietor of the place had his suspicious aroused and ran out and informed the police.

Some 1,650 high school and university students, representative of all sections in the United States, took part in a recent current history test, organized by the American "Review." Eleven per cent of the students (says Reuter's correspondent) failed to recognize a photograph of President Coolidge, and only 42 per cent knew the name of the inventor of wireless telegraphy. "Ma" Ferguson, Governor of Texas, was mistaken by some for the President of Mexico, and even for "Babe" Ruth, the baseball champion. Many students thought Teapot Dome was a public building in Washington. Others confused Mussolini with Battling Siki, and one student asserted that the United States had purchased Japan.

TRAVEL IN COMFORT

Aboard
DOLLAR
PRESIDENT
LINERS

FOUR SAILINGS each month to Manila thence FORTNIGHTLY service to Colombo, and via Suez to the Mediterranean, Boston, New York, and round the world.

TO MANILA—AND ROUND—THE—WORLD

President Hayes ... January 5th ... 8.00 a.m.

President Lincoln ... January 8th ... 2.00 p.m.

President Polk ... January 10th ... 8.00 a.m.

—and 4 sailings each month thereafter.

FORTNIGHTLY SAILINGS to Shanghai, Kobe, Yokohama, Honolulu and San Francisco.

TRANS-PACIFIC—TO SAN FRANCISCO.

President Lincoln ... January 16th ... 5 p.m.

President Cleveland ... January 30th ... 5 p.m.

—and sailings every 14 days thereafter.

Dollar President liners offer you luxurious travel comforts. All staterooms are outside rooms, well-ventilated and cooled by electric fans. They are furnished with beds (not berths), each having an electric reading lamp. Staterooms with private bath predominate, and all have hot and cold running water. The spacious steel swimming tank is always filled with clean sea water.

Decks are broad, and the use of oil-fuel insures their cleanliness. DOLLAR LINE cuisine is world-famous—varied fare prepared under the direction of skilled chefs. Orchestra music enlivens the voyage. All these travel advantages are yours when you sail on Dollar President liners.

MOROCCO QUESTION.
DEBATE IN FRENCH CHAMBER.

Paris, Jan. 2.
The Sultan of Morocco has
addressed a message to President
Doumergue thanking France for
the protection accorded to his
Empire.—Indopacifi.

An important debate took place
in the Chamber yesterday on
Morocco. The Communists main-
tained that the Government should
deal with M. Thomson and M.
Molinaud, deputies from Algeria,
pointing out the danger and recall-
ing the mistakes committed during
the conquest of Algeria, establish-
ing the influence of Abdel Kader
by a premature treaty.

M. Painleve declared that the
situation was fully re-established
and that the frontiers were free of
all attacks.

M. Briand affirmed that the
Government did not wish to support
the overtures of Capt. Canning.
He added: "I promise peace to
the Rifian population who will
know how to respect our frontier.
On this point my word is worth
much more than the visit of Capt.
Canning to Paris."

Credits were voted by a show of
hands.

Under instruction from M.
Briand, the Deputy Governor of
Africa, referring to Capt. Canning,
recalled having already informed
him in Morocco that it was impos-
sible for France, allied to Spain,
to engage separately in peace
negotiations, which cannot be enter-
tained unless between accredited
plenipotentiaries in the name of
the Riffs and duly qualified French
and Spanish plenipotentiaries.
The situation being unchanged, M.
Briand said he could not help
persisting in his determination, and
regretted that he could not grant
Capt. Canning the interview asked
for.—Indopacifi.

GANDHI TAKES A REST.

YEAR'S POLITICAL HOLIDAY.

Ahmedabad, Jan. 3.
Gandhi has decided to take a
year's rest from politics and to
devote his attention to the develop-
ment of hand spinning. He
declares that this decision has been
taken after consulting with many
friends during the National Con-
gress at Cawnpore.—Reuter.

RETORT EXPLOSION.

VICTIMS OF FLORIDA
TRAGEDY.

Pensacola, Fla., Jan. 3.
The bodies recovered after the
explosion in one of the retorts of
the Newport Rosin and Turpentine
Company are horribly mutilated.
One man who was blown through
the roof fell 150 feet away. The
damage to property is small.—
Reuter's American Service.

FRENCH TAXES.

TOBACCO INCREASED
FIVE-FOLD.

Paris, Dec. 31.
The financial propositions laid
before the Chamber provide for a
redemption fund to be administered
by a Council composed of indepen-
dent and impartial high officials.
The price of tobacco will be in-
creased five-fold as compared with
the pre-war price. The special
temporary tax on payments will not
apply to indispensable foodstuffs.—
Indopacifi.

LEVEL CROSSING
SMASH.EIGHT INDIAN WOMEN
KILLED.

Kalka, Jan. 3.
The Maharaja of Patiala and his
party, were returning from a shoot-
ing camp, when a lorry conveying
the Maharani's female attendants
and two of her female cousins,
was smashed by an express train at
a level crossing. Eight women
were killed and two seriously
injured.—Reuter.

"LITTLE ENTENTE."

THE COMING CONFERENCE.

Paris, Jan. 2.
The coming conference of the
Ministers of Foreign Affairs of the
"Little Entente" will possess an
unusual importance. M. Benes
(Poland) intends to form a union
which will base itself on a new
foreign political programme in
which Poland will occupy a very
important role. The relations
between the "Little Entente" and
the Soviets will be the object of
conclusive discussions.—Indopacifi.

FIGHT ON SHIP.

SEVENTEEN IMMIGRANTS
INJURED.

(Our Own Correspondent).

Singapore, Jan. 2.
Seventeen immigrants were in-
jured in a fight on the s.s. Van
Overstraten, whilst on a voyage
from China to Medan.

yesterday, the P. & O. liner Malwa
is due here with the Home mails
at 7 a.m. on the 8th instant.

The Observatory forecast for
to-morrow is as follows:—E-
winds, fresh to moderate; gen-
erally overcast.

SCIENCE OF SELLING

COLLEGE RUN BY BIG
LONDON STORES.

A Sewell and Cross young man,
A Howell and, James young
man,
A pushing young particle—
what's the next article?

Waterloo House young man

—Patience, Act II.

London shop-assistants now
have their own free college—those
living outside the metropolis can
attend for £11 5s. a year—in which
to learn the technique and
romance of selling.

The training has been arranged
by the Incorporated Association
of Retail Distributors, in conjunc-
tion with the London County
Council. It includes the study of
merchandise, the history of com-
merce, accounts, business train-
ing, and hygiene.

Personally-conducted visits are
arranged to important retail stores,
and talks to the students are
given by the heads of those stores.
Over 200 students were given
positions in the stores during the
past 12 months.

The scheme is supported by Sir
William Burdidge (chairman of
Harrods), Sir Sydney Skinner
(chairman of John Barker and
Co.), Mr. John Lawrie (manager
of Whiteley's), Mr. Gordon Sel-
fridge, and Mr. Percy Best
(manager of James Shoolbred and
Co.).

The classes are carried on at
the Westminster Day Continua-
tion School, in Horse-ferry-road.

Six persons were killed and
eight seriously injured as the re-
sult of a train colliding with
charabancs on a level-crossing
near Bletchley, on Dec. 8. The
charabancs, which were descend-
ing the hill, crashed through
the closed gates while
the train was passing. The
charabancs were smashed to
atoms. Their occupants were
mostly women returning from a
Wesleyan gathering.

FLAPPER FANNY

Many a girl has to be
kissed because she can't help
herself.
